

A business degree can take you to any industry and qualify you in a variety of specializations, from marketing to administration to analysis. An Associate of Science in Business degree prepares you for entry-level opportunities and gives you the foundation of a rewarding career.

“Brookline is a small college, so the instructors can be more one-on-one with students versus other colleges.”

Casey Cordero,  
Business Alumni

## BENEFITS OF A BUSINESS EDUCATION AT BROOKLINE COLLEGE

- **Comprehensive curriculum:** Your 60-week program provides a diverse curriculum of general education, business and management studies to help you get an entry-level management position.
- **Flexible learning:** Take classes in the morning, evening or online — Whatever is best for your schedule and lifestyle.
- **Fixed tuition and financial guidance:** There are no surprises with your tuition; it includes books, supplies and all fees. Brookline also offers loans, grants and scholarships to help you pay for your education.<sup>1</sup>

## BROOKLINE'S COMMITMENT TO STUDENTS

- **Great education at a great price:** With fixed tuition, you'll know exactly what your education will cost, from start to finish (program locations vary). Brookline can also help you search and apply for a scholarship, grant or loan.
- **Faculty dedicated to your success:** Since classes are small, your expert instructors can focus on your individual needs to see you through to success.
- **Job placement assistance:** Brookline's commitment doesn't end with graduation: The career services team will help you land your first job, offering assistance with resumé writing, job search and more.

## BROOKLINE COLLEGE DIFFERENCE

- 40 years serving our communities
- Small classes
- Personalized service
- Career immersion
