

Allied healthcare workers are not always directly involved with patient care, but they play crucial roles. An Associate of Science in Allied Health online degree at Brookline gives you a background in **accounting, finance, marketing and communications—and multiple opportunities.**

“Here at Brookline we’re a close-knit family. If it’s a student or even a faculty member we come together as a family and take care of that individual.”

Jessica Griffin,  
Surgical Technologist Instructor

## BENEFITS OF AN ALLIED HEALTH EDUCATION AT BROOKLINE COLLEGE

- **Comprehensive education:** Learn the essentials of health care finance, marketing, and management communications. You can also transfer credits from an allied health diploma program.
- **Convenient online program:** Brookline’s allied health program is completely online, so you can learn on your own timeframe and not according to a class schedule. You can complete your education in as little as 30 weeks.
- **Versatile degree program:** Allied health professionals make up 60 percent of the workforce and may work in as many as 80 different positions.<sup>1</sup>

## WHERE BROOKLINE ALLIED HEALTH GRADS ARE WORKING

- **Hospitals and clinics**
- **Rehabilitation facilities**
- **Physician offices**
- **Extended care facilities**
- **Dental offices**

## CAREER OUTLOOK

Allied health professionals can play a number of roles in the healthcare industry, including administration, athletic training, radiography, health information management and more. According to the Bureau of Labor Statistics, employment of healthcare occupations is expected to grow 14 percent through 2028, which is much faster than average for all occupations.<sup>2</sup>

## CURRICULUM OVERVIEW

### Allied Health – Associate of Science

61.5 CREDITS – 450 CONTACT HOURS – 30 WEEKS

The Associate of Science in Allied Health degree program provides allied health diploma holders with an opportunity to develop more in-depth knowledge of the health care environment. With courses in accounting, finance, marketing and communications, graduates will be better prepared to assume roles of additional responsibility within their area of allied health practice. The program, delivered online, is comprised of general education and core technical courses that can be completed in 30 weeks of full-time enrollment.
