CURRICULUM OVERVIEW

Health Information Technology

60 CREDITS – 960 CONTACT HOURS – 60 WEEKS

The Associate of Science in Health Information Technology degree program provides allied health diploma holders and students the opportunity to develop more in-depth knowledge of the healthcare environment in a technologically growing healthcare field. With courses in electronic health record and health information technology graduates will be prepared to assume entry-level roles in the healthcare data documentation and are eligible to take national certification exams.

The program, delivered in a blended modality, is comprised of general education and core technical courses that can be completed in 60 weeks of full-time enrollment for those who are starting the full program without a diploma in an allied health program.

Program Concentration Courses
