

**Allied Health is a diverse field that offers many job possibilities.** With an Allied Health Technologist Associate of Science online degree at Brookline, you'll be ready to take on an entry-level administrative job at a medical facility—perhaps in medical billing, health management records or system data management.

“Here at Brookline we're a close-knit family. If it's a student or even a faculty member we come together as a family and take care of that individual.”

Jessica Griffin,  
Surgical Technologist Instructor

## BENEFITS OF AN ALLIED HEALTH TECHNOLOGIST EDUCATION AT BROOKLINE COLLEGE

- **Comprehensive education:** Learn about HIPPA, CLIA and OSHA regulations; office pharmaceutical procedures; information technology ethics and guidelines; administrative procedures for medical offices; and even medical terminology, anatomy and physiology.
- **Convenient online program:** Brookline's allied health program is currently completely online, so you can learn on your own timeframe and not according to a class schedule. You can complete your education in just 70 weeks.
- **Versatile degree program:** Allied health professionals make up 60 percent of the workforce and may work in as many as 80 different positions.<sup>1</sup>
